

## "A Good Samaritan Approach to Missions" Luke 10:25-37

The parable of the Good Samaritan is a challenge on a heart level to live beyond ourselves, to step out of our comfort zones, and to have compassion on those who don't know Him. Also, hear from representatives from our three missions partnership locations in North Africa, Greece, and East Asia about opportunities to be involved in God's mission.

- At the center of what it means to know God is to love Him and to love others
- Love and compassion for others is not bound by geography, citizenship, or race.

How does God want to use me this year to reach those who are spiritually in need and dying apart from Christ?

### **Summer Projects**

Through English clubs and living on the university campus, you'll spend 6 weeks making friends with students in order to share the gospel with them.

Our partnership locations for summer projects:

### **North Africa**

There are less than 500 believers in all of North Africa. The city we have a partnership with is the most influential city in the region. By reaching out to the 125,000 Muslim students in this city for Christ, we can have a strategic impact on the continent!

### **Greece**

Greece is one of the most influential countries in Europe. Its population of over 400,000 university students makes it a strategic place where the gospel of Jesus Christ must be spread.

### **East Asia**

East Asia is arguably one of the most influential places in the world. Asians are responding to the gospel in unprecedented numbers, but there are still millions who have never heard of Christ. With over 20 million students, this part of the world needs to hear!
